

# KnowledgeSource PRO<sup>®</sup>

Regulatory Data and Revenue Intelligence for Physician Offices

- Reduce A/R days
- Ensure compliance
- Identify missed revenue opportunities
- Ensure accurate reimbursement

Regulatory guidelines are constantly changing and it can be difficult to ensure that your office is submitting accurate claims and receiving optimum reimbursement. CodeCorrect's Web-based KnowledgeSource PRO<sup>®</sup> can help you maintain compliance and identify missed revenue opportunities.

KnowledgeSource PRO helps strengthen your bottom line and shorten your revenue cycle. If your pricing or coding practices are insufficient, so are your reimbursements. KnowledgeSource PRO helps increase rightful revenue by making it easier to capture correct reimbursement for services rendered. It can also reduce A/R days while facilitating compliance with current CMS directives.

#### Key Benefits

- Comprehensive coding and compliance reference materials
- Value-added coding intelligence and analytics
- Code-based searches
- Coding and compliance expert consults

#### Coding & Reimbursement Information

- Provide up-to-date Current Procedural Terminology (CPT<sup>®</sup>)/HCPCS codes, ICD-9, modifier information, coding guidelines, NCCI edits and reimbursement information

- Display RVU, ASC and pharmaceutical payment information
- Indicate Correct Coding Initiative issues
- Point out medical necessity limitations (LCDs/NCDs)
- Supply Medicare preferred codes

#### Intelligence for Informed Decisions

- Bring to light HCPCS/CPT codes that are not paid by OPSS and suggest alternate acceptable codes
- Order codes and RVUs for optimal reimbursement
- Identify correct HCPCS, modifier and ICD-9 codes
- CodeCorrect Coach<sup>®</sup> enables users to pose specific questions and receive answers from our Coding and Compliance Department
- Searchable, archived Q&A questions

#### Regulatory Source Information

- Manage the information published in Medicare manuals, Medicare Bulletins, National Coverage Decisions, Local Coverage Decisions, Program Transmittals, CMS Rules and OIG publications
- Keep up-to-date with the most current CMS directives and make new information available daily
